

A NEW DAMPER DESIGN FOR THE HVAC INDUSTRY
HOYME AIR CONTROL ELBOW DAMPER (HAC-E)

Includes all the major features of the HOYME 'HAC' Air Control Damper, plus more. The
"HAC-E" 24Vac Motorized Elbow Damper:

1. Uses the Hoyme Patented Spring Drive for both **P**ower **O**pen & **P**ower **C**lose type, having diameters from 4" to 9".
2. Perfect for Zone Control Upgrading. Remove an Elbow and replace with an **HAC-E** Damper without cutting or changing the duct.

3. 100% Humidifier Air Control from No Air on "No Call" to Damper Adjustable Air Flow on "Humidity Call." Improves the efficiency of the entire Heating and Cooling System.
4. Field Changeable from PO to PC or (vice versa).

5. Volume Adjustable and Angle Adjustable to include: 90°. 130°, 160° and offset 180°.
